## A close-up photograph of a young man and woman smiling warmly at each other. The man, on the left, is wearing a blue and white patterned shirt. The woman, on the right, is wearing a dark top. They are holding a large bouquet of vibrant red roses wrapped in brown paper. The background is a solid, bright red color.

A huge part of attracting and seducing a woman happens before the two of you even speak. I would say probably 90%! Women want certain things from a man, and it is your job to present it to them. Better than presenting certain characteristics is to actually be someone who has these characteristics!

Your mother and father have probably been warning you about the "bad guy" as far back as you can remember. Well, chances are likely that you'll encounter more than a few while in high school. Every school has at least a few male pigs whose only goal in life is to hook up and get laid. These guys will come at you in completely different ways. Some will be obvious... [Read More](#)

## Shoo Away Your Shyness

Shoo Away Your Shyness

### Summary:

Shyness is a very important issue, that nervousness that overcomes in certain social situations. It can be like a roadblock in creating a friendship or even starting a conversation with the one we meet.

Shyness can start in someone's personality from early childhood. A shy person may be viewed as overly serious, even humorless because for him it can... [Read More](#)

### Gemini - Capricorn Relationship

There are lessons Capricorn can learn from Genini. Innocently self-centered, intellectually independent and curious, Gemini is magically able to temporarily enter the realms of every book ever read, every movie ever seen, every symphony ever heard - to move as naturally and freely in that so-called imaginary world as if it were the kingdom... ### Gemini - Sagittarius Relationship

There are two types of Archers: those who take after the front end or human half of the Centaur, and those who take after the rear end or equestrian half. You may have met both types. I have.

I'm sure you all know by now, Gemini is also a double sign, dual in personality, multiple in word and action. I'll bet you don't know the task... [Read More](#)

### Gemini - Scorpio Relationship

Most people don't know they're dealing with a multiple when they associate with a Gemini, Scorpio suspects the truth right away. Scorpio suspects everything right away. It's difficult, if not impossible to fool a Scorpion for long. The suspicious nature of these people prods them to penetrate mysteries like Sherlock Holmes, but they seldom... [Read More](#)

### Gemini - Libra Relationship

Since Libra's can never make up their minds, and Gemini's are continually changing theirs, it's hard to know what to predict will happen in a relationship between these two, whether relatives, husband-wife, friends, business partners, lovers, mates or what ever. Anything I might write here, is likely to change before it has been read.

Gemini,... [Read More](#)

### Gemini-Virgo Relationship

Playful Gemini Twins, may indeed, seem like heartless children to the more sensible and serious Virgos. Always out chasing cobwebs and mirages, jumping bout like grasshoppers, getting caught in summer brainstroms and trying to be in two places at once. To the typical Virgo, Gemini's quick changes of both heart and mind are clearly flaws which... [Read More](#)

### Gemini - Leo Relationship

Gemini Calculates the sunny but sometimes insufferable antics of the Lion, The Twins wonder: "Does the big cat actually posses such complete self-assurance? or could Leo only be trying to prove that the reality is as infallible and fearless as the image?" - a typical Gemini mind trip.

As the Leo lazily studies the Gemini Twins, the cat has... [Read More](#)

### Gemini - Cancer Relationship

There's a party in progress. Both Gemini and Cancer are good talkers. The Crab's ability to remember details and to tell a story with sensitive perception, laced with imagination and humor, can hold a crowd spellbound. If there's also a Gemini in the room, weaving tall tales with wit and charm, and maybe doing a few card tricks on the side,... [Read More](#)

### Gemini - Gemini Relationship

Let's get the math right, a Gemini and a Gemini equals a group of four bright, active people, two sets of twins, tossing ideas, dreams and challenges back and forth between themselves and the world at large. While each may see life in different colors, they all travel at the same rate of speed, in that they all understand one another's need for... [Read More](#)

### Taurus - Pisces Relationship

Pisces could show Taurus more imaginative ways to make money, and teach them the joys of sharing it with others, along with the truth of the infallible Universal Law that the more you give, the faster it multiplies.

Conversely, Taurus could teach Pisces the proper respect for minimal security, that it's wiser to save at least a few dollars, even... [Read More](#)

### Taurus and Aquarius Relationship

Genius and Insanity! Every Aquarian who ever walked the earth is the first, while also being harrassed, by the second, or accused of it. Aquarian's are well aware the possess this half-and-half nature, and are untroubled by it, admitting their quirks. Another Astrologer's (Carroll Righter) mother called him "an odd... [Read More](#)

The virtues of solidity and dependability surround the Bull and Goat with an aura or earth-colored sureness. Life to the Goat and Bull is not all grey and brown, nor black and blue. In no way will a Bull change their slow, steady pace, so it's up to Sagittarius to stop running for a spell, now and then, if these two are ever going to settle down, and cash in on several possible rewards of the relationship.

### Taurus - Scorpio Relationship

It isn't always a horror, the potential is there, however. When they really try, Taurus and Scorpio often get along well, sometimes great. ### Taurus - Virgo Relationship

Virgo admires the Taurus strength of purpose, although they have little tolerance for the Bull's stubbornness in the face of an obvious mistake. Taurus is somewhat in awe of the quick Virgo mind, though the Bulls have little sympathy for health nuts, cleanliness bugs or the finer nauances of Virgo hair-splitting.

So, what are a few minor... [Read More](#)
